WHERE TO OBTAIN THEM.

A Pointer as to the Source of the Tally-Ho.

Great interest has been awakened through the presence in our city of the South Bend coaching party, and the source from whence came the fine vehicle which the party has. It is representative of the highest type of road vehicle and embodies all the features which make cross-country journeying a pleasure and delight. Since it has become known that the vehicle is from the works of Studebaker Bros., the greatest vehicle builders of the world, it has become a matter of interest to know where the agency of the firm in this city is located. In that connection it is of special importance to know that Brown, Hall & Co., the well-known wholesale and retail carriage dealers, are handling the unapproachable Studebaker goods and that a full and complete line of their fine vehicles may be seen at the Division street repository of the firm every day. And here it is that our enterprising city firms have won more conspicuous favor for their enterprise and business sagacity than Brown, Hall & Co. and in securing the agency of the Studebaker goods and in bringing a full line of the fine goods to the city they are entitled to the grateful tribute of a liberal patronage. Studebaker Bros. are justly celebrated the world over as manufacturers of fine vehicles of all kinds. They permit no competition to encroach upon their undoubted pre-eminence. Their agents in cities of the importance of our own are fully supplied with everything produced by the firm and the latest and best of everything is kept constantly before the public.

To make ample room for the Studebaker goods and to give them an adequate opportunity for display the Division street repository has been refitted and enlarged and newly stocked with a full and complete line. To those desiring to inspect a first-class line of modern vehicles of every grade it is of importance to know that Brown, Hall & Co. are now able to offer the best opportunity afforded in Central Michigan.

MERCANTILE OPPORTUNITIES

Trade That May Be Had for the Asking—Merchants Getting Rich in the West.

Quite a number of enterprising young men are investigating the location of Kettle Falls with a view to starting various mercantile enterprises there. They find that the situation and the topography of the surrounding country make Kettle Falls a natural trade center and that there is a large mining population naturally tributary to this point. The large profits made in frontier stores are well known and here is an opportunity presenting all the advantages without the drawbacks of the most new towns present. A splendid trade from the farmers and miners is to be had for the asking, the only requisite being a large stock and a full assortment of goods.

One Store or Several.

The parties interested are undecided whether it would be better to organize a stock company and run one immense general store or to establish a number of separate stores, each carrying its own particular line of goods. The parties interested in establishing trade there will probably meet at the office, No. 1 Canal street, under Old National bank, on Friday evening of this week at eight o'clock to discuss the question.

A. L. Skinner, register of deeds for Kent county, expects to start for Kettle Falls on Monday next. Thomas Emerson started last night for Kettle Falls.

Horse Sale.

Ray Warner, superintendent, will sell at Comstock park at public auction this morning, August 11, at 10 o'clock, four high bred and fast horses.

A racer that can show a 2:20 clip. Quarts, a fine road gelding.

Minnie, a bay yearling filly, sired by Pilot Medium and a daughter of Lexington Chief; infallible to elector, son of Electioneer.

This sale will be absolutely to the highest bidder, without reserve or by-bidding. Inspection of stock solicited.

Ray Warner, Comstock Park, Grand Rapids, Mich.

SIXTY MILLION BUSHELS OF

Wheat—A Bushel for Every Inhabitant of the United States—

The Kansas Crop of '22. Never in the history of Kansas has that state had such beautiful crops as this year. The farmers cannot get enough hands to harvest the great crop, and the Santa Fe Railroad has made special rates from Kansas City and other Missouri River towns, to induce harvest hands to go into the state. The wheat crop of the state will be from sixty to sixty-five million bushels, and the quality is high. The grass crop is made, and is a very large one; the early potatoes, rye, barley and oat crops are made, and are all large. The weather has been propitious for corn, and it is the clearest, best looking corn to be found in the country today. Cheap rates will be made from Chicago, St. Louis and all points on the Santa Fe east of the Missouri River, to all Kansas points, on August 30 and September 27, and these excursions will give chance for east-bound farmers to see what the great Sunflower State can do. A good map of the state will be mailed free upon application to Jno. J. Byrne, 723 Madison Block, Chicago, Ill., together with reliable statistics and information about Kansas lands.

LAWN SPRINKLERS!

will do well to look at the

ARC

Five Good Reasons why this is the best sprinkler to buy.

First. It will sprinkle a surface from four to forty feet in diameter according to the water pressure.

Second. It is the only machine ever invented that will sprinkle water in a half circle, thus preventing the wetting of walks while thoroughly sprinkling the lawn.

Third. It can be changed from a circle to a half circle or vice versa in five seconds.

Fourth. It distributes the water over the entire surface equally, wasting none around the base of the machine.

Fifth. It will not clog up.
